C.B.S.E
Shri M.K. Mehta English Medium School

WORK EXPERIENCE

Frontend Intern
Centurian Software Private Limited

10/2022 - 09/2023
Achievements/Tasks

- Collaborated with the development team to implement user interface designs using HTML, CSS, and JavaScript.
- Worked on optimizing web pages for performance and responsiveness across various devices.
- Gained hands-on experience with front-end development best practices and coding standards.
- Contributed to the implementation of design systems and maintained a consistent look and feel across multiple projects.
- Worked closely with cross-functional teams to align user access with business needs.

QA/QC Engineer
Dynamic Forge and Fittings

06/2021 - 08/2022
Achievements/Tasks

- Proficient in managing third-party inspections and documentation, adhering to industry standards like ASME, ASTM, and MSS SP.
- Extensive experience in AutoCAD software for drafting and design analysis, meeting client demands with precision.
- Adept at identifying and resolving issues, honing analytical skills through successful project engagements.
- Proven track record of delivering quality work under tight deadlines, showcasing multitasking abilities in a fast-paced environment.

SKILLS

HTML   CSS   Javascript   MYSQL   reactjs
Material UI   Bootstrap

PROJECTS

Internal Web Application (02/2023 - 08/2023)
- Collaborated with the development team to design and implement the frontend using HTML for structure, CSS for styling, and JavaScript for interactivity.
- Ensured optimal user experience across devices by implementing responsive design principles.
- Implemented solutions to ensure consistent functionality across various web browsers, enhancing accessibility.
- Actively participated in discussions and contributed to the enhancement of existing features based on user feedback.
- Engaged in debugging sessions to identify and resolve frontend issues promptly.

Personal Project: Weather App using React.js
- Users can input the name of an Indian state, enabling the Weather Widget to dynamically fetch and display the current weather report for that specific area.
- Employing advanced state management techniques in React.js, the application efficiently handles user inputs, API responses, and component updates.
- Showcase of expertise in integrating external APIs, with a focus on leveraging the Open Weather API to fetch and display accurate and up-to-date weather information.
- Ensured a responsive design, optimizing the Weather Widget for various screen sizes and devices, offering a consistent and visually appealing user experience.
